

Understanding Your Debt

Knowing Your Debt

The National Student Loan Data System (NSLDS) is a database that provides a centralized location where borrowers can view their federal student loans and grants that are tracked throughout their entire lifecycle. Log in to the [NSLDS site](#) with your FSA ID username and password.

Reducing Your Debt

Making the decision to pursue a career-focused education is a big step, and choosing the best way to pay for your education involves careful planning and consideration. At Ultimate Medical Academy (UMA), we are committed to helping you understand the different types of financial aid that may be available to you.

Many students are not aware of the types of aid that exist to help pay for the cost of their education. In addition to the federal financial aid that may be offered to you through Pell Grants or loans in your financial aid package through UMA, there are additional scholarships and grants for which you may be eligible.

If you have any additional questions about your financial aid, please call Student Finance at **888-212-5421** or review your Financial Aid tab in the Puma Den.

Below you will find a list of places to start your research for additional aid. These websites offer scholarships based on need, merit, and many other qualifications.
